FORE WORD

Dear Readers,

Poverty is caused by multi-dimensional factors that need multiple perspectives and multiple approaches to thoroughly understand and find the best solutions to. Due to that, a government cannot single handedly resolve all matters on poverty and welfare on its own. Poverty eradication needs to be a joint effort in order to be successful. Therefore, the participation of the people in an organized fashion, can contribute greatly to these efforts. The people, through NGO's or CSO's, can support the government in various fields. With this synergy, it can give nothing but positive outcomes for the greater good of the people. This content was written to give you a small taste of success from G-Level-NGOs collaborations in the India, including the success have achieved through our Strategic Alliance for Poverty Alleviation Programme (SAPA), a programme focused on multi-stake holders collaboration. The NGO's profiled in this literature is a showcase of what the people have achieved, and what potential remains to be harvested.

Have a pleasant read!

(A. Hussain)

Programme Secretary

Organizational Background:

HELPING HAND FOR LIVELIHOOD FOUNDATION is a Not For Profit Organization aims to seeking to a world of hope to eradicate poverty by providing social justice and tolerance, where poverty has been overcome and all people live with dignity and security. HHLF works toward overcome people from poverty because these people have also equal rights and opportunities. HHLF also aims to recognize and value the potential of local resources. HHLF empowering and leveraging already available resources, wisdom, time, skill and effort of the people.

Well- Organized : HHLF is an organization that believes in performing or functioning in the best possible manner with the least waste of time and effort. We believe in reducing the hierarchy structure and work with minimum layers as far as the vertical structure of the institutional pyramid goes. It is our aim to use sustainable processes that reduce the paperwork and enhance effectiveness for every project undertaken.

Support for development: Our committed volunteers act as role models and identify change in a unique method with no personal intentions or bias. We promote the cause as their own initiative as they believe in it with full conviction.

Impressive Employment of Human Resources: We strongly believe the participation of locals by including them in every step of the process. Those who are firmly rooted to the cause can provide better and practical solutions as they are ground level people experiencing the issues and may be able to provide insights for solving the problem.

Promote Management and Leadership: People management is as important as the cause. Education combined with technical skills, making it into practice for optimum utilization of resources, public dealing, problem solving and decision making brings out the leadership quality of getting work done by taking maximum people into confidence.

Vision: To establish, run, maintain and/or grants-in-aid to Hospital, Medical College, Multi-Specialty Hospitals, Nursing Colleges, Maternity Home, Rehabilitation Centers and commercial cultivation for the marginal people of the society. To empower marginal people of society with a better resources , communication and encouraging involvement in term of market-focused livelihood programs, health care awareness, free creative education for rural and poor schooling children, and focusing on alleviating poverty and social exclusion. Acting as a catalyst in bringing sustainable change in the lives of under privileged children, youth and women, with a vision of development.

Mission: To organize men and women into Self Help Group and develop their leadership qualities to facilitate making decision at personal and social level. To improve health status of communities, health, environmental, cleanness and increasing access to primary health and child care centers in remote villages. To create institutions with forward linkages providing commercial medicinal plants cultivation training for livelihood of underprivileged

society. To reduce poverty by improving economic status of individual through income generation activities by organizing vocational training in multiple trade. To organize non-formal education centers and residential schools for the child labourer's and street children's and dropouts.

Objectives: To create a positive change in the lives of the economically underprivileged and underserved people of society like farmers. We want to execute programs with high efficiency and minimized costs through partnerships with government and other renowned NGOs through dimensional support for the entire family and not just for the woman. We are researching and developing innovative solutions to the problems of marginal people. We take care of the matter that programs must meet our benchmark of quality and beneficiary satisfaction. This goal will be measured according to the participation and reported benefits of practitioners' involvement in mutual learning, exchange, training, and capacity building activities. Transformation is our prime objectives.

What we do : POOR SCHOOLING CHILDREN'S EDUCATION PROGRAMME: The Organization conducted the free creative education programme "Baal Vikash Pathshala" for poor schooling children. Education is very important tool for the people all over the world to make balance of life and its existence on the earth. Each and every individual need proper education to enhance their own life standards as well as become a part of the social and economic growth of their own country. Future of the any person or country depends on the education system strategy followed. Even after lots of awareness programmes about proper education in our country, there are many villages still left which are not having proper resources and awareness for education of people living there. Though condition has improved than earlier and various steps have been taken by the government to improve the education status in the country. Well being of the society depends on the well being of the people living in that society. It brings economic and social prosperity all through the country by solving issues and identifying solutions.

HOSPITAL PROGRAMME: Rural health care is one of biggest challenges facing the Health Ministry of India. With more than 70 percent population living in rural areas and low level of health facilities, mortality rates due to diseases are on a high. The organization conducted the very low budget treatment in our HHL HOSPITAL. We always organized routine camps conducted in the village. A majority of these are in rural areas where maternal health care is poor. A majority of 700 million people lives in rural areas where the condition of medical facilities is deplorable. India also accounts for the largest number of maternity deaths. We are providing free checkup and free essential nutrition supplements to child bearing women by tie-up with local private hospitals and nursing homes.

WOMEN EMPOWERMENT PROGRAMME: The programme was organized for the welfare of helpless women of the community. The growing social awareness across the globe

has brought a number of issues to the fore among which gender equality and empowerment of women are very significant. Discrimination against women in the form of male- female differentiation constitutes the core of the gender-based system. Gender bias is generated by the process of extending the biological sex differences to the criteria of social placement. Consequently the idea that women have to be treated on par with men in every respect has gained currency. Empowerment, as the word suggests, is to empower or enable women to do certain things and in most cases it connotes women wielding political power. A deeper understanding of the word throws light on many of its dimensions and implications. The very concept of empowerment of women which is based on equality between sexes is a long drawn, conscious and continuous process comprising enhancement of skills, capacity building, gaining self-confidence and meaningful participation in decision making. As the foremost precursor to development, empowerment of women comprehensively seeks to ensure an equitable division of resources and carve a clear role for them in decision-making. It helps them articulate theirs as well as other rights and participate actively in the democratic processes. Empowerment also wards off retrogressive practices like female infanticide and gender based violence.

CREATION OF SELF HELP GROUP (SHG) :

HHLF going to organize informal association of people who choose to come together to find ways to improve their living condition. It has components i.e micro credit, entrepreneurship and empowerment having three structure neighborhoods groups, area development society and community development society.

Skill Development Programs:

Skill development is the best way to improve the confidence of youths and to guide them in getting adequate work to do. A major problem faced by educated Youth in rural areas is the lack of available employment opportunities in local areas. It results in frustration and consequent migration. If rural youth get adequate opportunities for taking up gainful ventures at the local level, they would not be able to improve the well being but also can

contribute to the economy. Self-employment is the only possible situation for this problem. A small step was taken by us in a remote village of the Districts of Bihar like Araria, Purnia, Katihar, Khagaria, Begusrai, Saharsa, Bhagalpur, Banka, Munger, Muzaffarpur, Sitamadhi, Sheohar, Saran, East Champaran, Madhubani etc; that has proved to be a significant milestone in this situation. Helping Hand For Livelihood Foundation aims to transform rural youth to acquire a productive identity through short duration interventions which include motivation and training. Trained artisans are

working in several cotton and textile factories in Delhi, Mumbai and other cities. They skill up themselves better. But they are awaiting for doorstep project in area.

RELIEF CAMPS FOR DISASTER EFFECTED PEOPLE:

Our dedicated team of organization always be ready to combat with natural disaster like flood, fire, storm and pandemic etc on ground level. We arrange food, cloths, medical camps and

medicine to effected people of these area. Almost area of Bihar badly effected in flood situation every year.

It necessary to carry out the victims

from flood prone area to safe and high place to save them.

Many people die in flood every year. We provide financial help to dependent of deceased. Post flood epidemic condition

suffering the people. In this condition it is very necessary to organize mobile medical camps in this area. Approximately 10000 marginal individuals/families served by our organization per annum by all means. Recently we were involved to distribute food packets among approximately 3000 daily wages labors and migrant families during the lock down due to COVID-19 pandemic. Provide Medical Camp/ Awareness program for COVID-19.

Farmers Development Programs :-

Farmers of India is back bone of our economy covered by 70% of population. Country side of India need development in commercial agriculture specially. As you say 70% of population in India depends on agriculture. You can say that agriculture is a significant sector of Indian economy. Our organization help

in rural development by introducing commercial cultivation programme which gives financial strength to marginal and small farmers. We survey the areas and found that people are involve in traditional cultivation. So our organization going to introduce a unique cultivation pogramme with the name and style of **Fundamental**

Agro S.Centre. Who has brought up a vanilla cultivation programme

for marginal farmers to increase their financial-capacity. Aim & ambitions of the Institution is to the most belonging with commercial, medicinal and aromatic plants cultivation. The Institution has different series of medicinal, commercial and aromatic plants i.e. Vanilla, Cocoa (Choclate Plant) Belladonna, Stone Flower, Basil, Mint, Aloe Vera, Nux Vomica, Arsenic, Yeast and Saffron cultivation. The Institution is highly desirous to implement Vanilla and Cocoa cultivation programme on the basis of maximum social advantages through Voluntary Co-operative Development System. Therefore, a big cooperative society will be formed of farmers i.e. fifty or hundred or up to three hundred.

TARGET GROUP OF ORGANIZATION: Our organization targets marginal farmers SC,ST, minority, poor, helpless women, child, child labour, rural and urban youths, disaster effected people, physically challenged and neglected people in the society without racial difference. Our main target to meet the marginal people his justice, equity and respect in society.

THEMATIC AREA BEING FOCUSED : Our organization manage thematic intervention to improve knowledge and awareness by conducting meetings and seminars. It is more necessary steps for an organization to awake the sleeping society to avail his rights and respect. We also aware for implementation of “Beti Bachao Beti Padhao” and “Swachh Bharat Abhyan” . After decade an abuse still persists in our society that is child mirages and sexual harassments. Our focus is on this area to eradicate these abuses from the society. We have a lot of experience campaigning, training, Self Help Group Creation; manage disaster, medical supports and agricultural activities. The thematic area covers forestry and agriculture with a potential. There are significant low-cost opportunities in agriculture, forestry and other land use related activities that link food security, environmental sustainability, local climate adaptation needs and socioeconomic development into a coherent package.

एचएचएल फाउंडेशन नामक संस्था के एचएचएल अस्पताल का उद्घाटन रविवार को शहर के महादेव पर किया गया। अस्पताल का उद्घाटन जिला परिषद अध्यक्ष पप्पू अजीम और अररिया नगर परिषद के मुख्य पार्षद ने किया। इस दौरान संस्था के सदस्यों ने बताया कि यह संस्था स्वास्थ्य, शिक्षा, जीविका,

महिला सशक्तिकरण के लिए काम करती है। इस अस्पताल के खुलने से जिले भर के गरीब लोगों को किसी भी तरह की बीमारियों के इलाज की सुविधा मिलेगी। मौके पर जयदू अल्पसंख्यक प्रकोष्ठ के सीताराम मंडल, जन अधिकार पार्टी के जिलाध्यक्ष इमत्याज अनीस उर्फ लड्डू, डॉ. भूपेंद्र कुमार, डॉ. नीलोत्पल प्रवीण आदि उपस्थित थे।

कैरम में 2-1 से सलाउद्दीन को हराकर मेराज आलम ने कप पर जमाया कब्जा

भास्कर न्यूज | फतविशगंज
चाई 23 स्थित आलम टोला कई दिनों से चल रहे कैरम प्रतियोगिता संपन्न हुई। इसमें 2-1 से सलाउद्दीन को हरा मेराज आलम ने जीत हासिल कर कप पर कब्जा जमाया। प्रतियोगिता में 16 खिलाड़ियों ने भाग लिया जिसके फाइनल में मेराज आलम और सलाउद्दीन अंसारी के बीच खेला गया जिसमें मेराज आलम 2-1 से जीतकर कप अपने नाम किया। मुख्य अतिथि जयदू नगर अध्यक्ष गुरु अली व डॉ. इलियास अंसारी ने प्रतियोगिता के पुरस्कार का वितरण किया। बेस्ट दर्शक का पुरस्कार जाहिद अंसारी मुखिया व जाबुल खान को दिया गया। प्रतियोगिता के एंपायर फिरोज आलम शमशद आलम लड्डू, हुसैन व मिन्हाज आलम ने करीब 15 दिनों से चले आ रहे कैरम प्रतियोगिता के संचालन में मदद किया गया। मुख्य रूप से प्रतियोगिता को सफल बनाने में जमील मंसूरी, बाबी खान, आजाद आलम, रज्जक लुक्मान, शाहबाज, हम्मद, गुलफाम अंसारी, शमशद बंधू, जाहिद ने अहम भूमिका निभाई।

SUCCESS STORY: Shriya Bharti lives in Bagnagar, Jokihat, District of Araria . She read in Standard -1 in Primary School but his family were unable to send her to teaching centre properly. When our Baal Vikas Pathshala open in afternoon 3pm, she use to stop our gate & looks inside the children coming in & settling down. It took us 2 months to bring her inside the “Baal Vikas Pathshala”. Coming from the lower income family ,Shriya Bharti joined our centre ,In that time she can't be able to read write & communicate of any basic syllabus having low confidence. Three months of learning, mentorship & his own hard work made her able to read write & communicate and good knowledge of basic syllabus.

The way you get meaning into your life is to devote yourself to loving other. Service to other is the rent you pay for your room here on earth. If you look at what you have in life you'll always have more. If you look at what you don't have in life you will never have enough. Do not go where path may lead, go instead where there is no path. All we need is to build human relations which our deeds. That's only thing that last fore ever.

“Volunteers don't necessarily have time, but they have heart. As Volunteer, you will learn not just more about the needs of others, you will also learn more about your own needs and you will discover that in helping other, you help your self most of all.

A Volunteer can be anybody. There is no age limit to begin a volunteer, no preferred categories, no salary specification, no special degree or work experience. All that is required is a dedication to the cause, sincerity about the work that one in doing and commitment to a regular and sustained efforts with the organization.”

– MAHATAMA GANDHI
